PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer specializing in building responsive, interactive, and user-centric web applications. Proficient in HTML5, CSS3, and modern JavaScript (ES6+), with practical experience in integrating RESTful APIs, handling JSON data, and dynamic DOM manipulation. Currently advancing technical skills through the intensive Rowad Misr initiative, aiming to deliver high-quality, maintainable code for innovative web projects.

CORE COMPETENCIES & SKILLS

- Languages & Core Tech: JavaScript (ES6+), HTML5, CSS3.
 - Web Development: RESTful APIs (Fetch), JSON, DOM Manipulation, Single Page Application (SPA) concepts, CRUD Operations.
 - Design & Layout: Responsive Web Design, Advanced CSS (Flexbox, Grid), UI/UX implementation.
 - Tools & Workflow: Git, GitHub, Visual Studio Code, Chrome Developer Tools.
 - Soft Skills: Problem Solving, Critical Thinking, Time Management, Effective Communication, Adaptability, Team Collaboration.
-

WORK EXPERIENCE & TRAINING

Front-End Developer Trainee | *Egypt Ventures*
(Rowad Misr Initiative) 09/2025 – Present

- Developing responsive web applications and interactive UI components using modern HTML, CSS, and JavaScript.
- Developed over 5 responsive front-end projects during the training, including the standout "Family Bakery" website, applying core HTML, CSS, and JS principles.

- Collaborating in a structured training environment to build real-world projects following best coding practices.
-

KEY PROJECTS

Dynamic E-Commerce Platform | engali983.github.io/E-commerce | github.com/engAli983/E-commerce

- Developed a dynamic e-commerce interface utilizing HTML, CSS, and JavaScript, smoothly rendering and filtering over **50+ items**
- Implemented data fetching mechanisms using the Fetch API and parsed JSON to dynamically render product listings with a **100% seamless shopping experience**
- Integrated an interactive shopping cart and customized the UI, reducing user friction during the checkout process.

Card-Pay Validation Interface | engali983.github.io/card-pay | github.com/engAli983/card-pay

- Built an interactive credit card payment gateway focused on advanced JavaScript DOM manipulation.

- Programmed real-time form validation for user inputs ensuring **100% data accuracy** and preventing invalid submissions.
- Implemented 3D flip animations and dynamic UI updates reflecting user input in real-time with **zero lag**

Forkify API Food Recipe API |
engali983.github.io/forky-api |
github.com/engAli983/forky-api

- Engineered a food recipe application by integrating a third-party RESTful API to fetch and display dynamic content for over **100+ recipes**.
- Developed a complete Task Management system implementing full CRUD functionality using JavaScript arrays and local storage for robust data handling

Custom Portfolio & Landing Pages |
engali983.github.io/Portfolio/ |
github.com/engAli983/Portfolio

- Coded a personal portfolio and various business landing pages completely from scratch, achieving a **100% responsive design score** across mobile, tablet, and desktop screens.
- Focused on cross-browser compatibility and responsive layouts utilizing modern CSS techniques to improve page load speed

EDUCATION

Bachelor of Computer Science

*Obour High Institute for Engineering, Computers and
Information Systems Expected Graduation: 2028*
